Description of the institutional grading system

The Howest (and Flemish) grading system is based on evaluations out of 20 points.

The Howest scores can be easily converted to the sending institution's scores /grades by comparing the **grade distribution table** of the sending institution and the Howest one.

Howest's grade distribution tables can be found at www.howest.be/gradeconversion, or in the EGRACONS conversion tool at <http://egracons.eu>, which will perform the conversion automatically, if the sending institution also participates in EGRACONS.

Partner institutions that don't use grade distribution tables can find additional information in the table below to interpret the Howest scores.
